

Sharing Mat – 4 Groups

A large graphic organizer for sharing ideas. It consists of a large, empty rounded rectangular box on the left side. To its right, there are four smaller, empty rounded rectangular boxes stacked vertically. Each of these four boxes is connected to the large box on the left by a line that tapers to a point, resembling a speech bubble tail. This layout is designed for a student to present their work in the large box and then have four different groups provide feedback or share their own thoughts in the smaller boxes.
